

# WHAT IS RESUME DRIVEN DEVELOPMENT?

- Using a tool not because it's the most effective solution to existing problem, but because it will look nice in our resume.
- Sometimes there is no even an existing problem but there is a solution to it.

# RESUME DRIVEN DEVELOPMENT

## WE VALUE:

- Specific technologies over working solutions
- Hiring buzzwords over proven track records
- Creative job titles over technical experience
- Reacting to trends over more pragmatic options
