

WHY DO ENGINEERS FOLLOW RDD?

- Be competitive on job market
- Want to try something new
- Bored in their daily jobs
- Enjoy inventing things
- Any other reasons?

HOW CAN ENGINEERS ACHIEVE THE SAME WITHOUT FOLLOWING RDD?

- Experiment with new tools outside of work (e.g. open source projects, hobby projects).
Make money of your learning activity following this approach.
- Become a problem solver
- Choose a role where you have many changes
- Any other ideas?
